

16:15-16:40 **Development and Preclinical Evaluation of Immuno-Oncology Drugs**

Seung-Oe Lim

Purdue University, Assistant Professor

Specialty: Cancer, Immunotherapy, Antibody, Post-Translational Modification

[Recent Activities]

- B.S., M.S., and Ph.D. at Seoul National University
- Postdoc. at University of Texas, MD Anderson Cancer Center
- Instructor at University of Texas, MD Anderson Cancer Center
- Assistant Professor at Purdue University

[Research Interests]

- Research in the Lim lab focuses on identification of regulatory mechanism of anti-tumor immunity in several types of cancers in particular breast cancer. Based on the mechanism, we focus on developing strategies that enhance therapeutic efficacy of immunotherapy and identification of new druggable target to overcome immune checkpoint blockade resistance.
